

Notice

To all evening SAS program users and staff:

The evening SAS program will remain suspended until further notice.

All recreation programs are required to follow by-law 326 as directed by Hamlet Council.

The Rankin Inlet DEA will only agree to allow the SAS evening program to start back up if the Hamlet agrees to drop the requirement for proof of vaccine access.

This demand is unacceptable and Council views it as inappropriate. We regret being forced to make this decision. With covid still being spread in the community Council isn't prepared to take unnecessary risks with our resident's health and safety.

We encourage users to bring their concerns to the DEA.

Should you have any questions, please contact the rec. office at 645 2284.

David Clark, Rec. Director
