

Vancouver April 11, 2022

Position Available: Core Cutter

Duration: from July to September, 2022

Job Type: Temporary

Rotation: Fly-In/Fly-Out, 3-weeks in/1-week out, Remote camp location

Wage Rate: Based on experience. Initial \$20/hr

Intended Job Posting Audience: Anyone who can legally work in Canada can apply for this job. If you are not currently authorized to work in Canada, the employer will not consider your job application.

Application Instructions: Interested applicants should send their resume to hr@valoremals.com.

ValOre Metals Corp (ValOre) is planning a mineral exploration program at its Angilak Project in 2022. This work will involve 2 phases: Spring (mid April to end of May) and Summer program (July-September).

Responsibilities:

Reporting to the onsite Project Manager, the core cutters will be responsible for the following:

- Safe operation of the core cutting equipment
- Monitoring of the core cutting equipment and performance of basic maintenance, including;
 - the monitoring of blade wear and tear and the changing of cutting blades when required, and
 - the cleaning of the core saw tray, reservoir and work benches at the end of each shift
- The safe and careful handling of all core and core boxes
- Inserting cut core into pre-labeled sample bags and ensuring the samples stay in a neat and orderly succession
- Performing any other duties, projects or activities, as directed by a Supervisor, that may be required for cut-shack, coreshack or camp operations
- Complying with all of ValOre's camp, code of conduct, and environmental policies, as well as being committed to safe and respectful work practices

Knowledge, Skills & Experience:

- Be in good physical condition, capable of lifting and carrying for short distances up to 25kg of weight
- Able to work long hours of approximately 12-hour shifts
- Able to work on rotation that will be no shorter than 3-weeks in/1-week out
- Able to take direction and supervision

1020 – 800 West Pender Street, Vancouver, BC V6C 2V6

Tel: 604-646-8354 Fax: 604-646-4526

- Able to perform physically demanding work
- Strong communication, teamwork and collaboration skills
- Strong observational skills required (able to recognize abnormal operational conditions in camp and immediately report them to the camp manager)
- Solid time management and organizational skills
- Be comfortable and have experience working in a remote work environment
- Previous core cutting experience working with electric rock saws and associated equipment would be an asset

All individuals will be provided with a Site Safety Orientation upon their initial arrival in camp. They will also be provided with training as well as all personal protective equipment required and specific to the roles they are expected to fill.
